AQUARIUM MAINTENANCE

FOR HOME AND OFFICE AQUARIUM

Maintaining an aquarium requires time and knowledge. While you can do the basic aquarium maintenance, you may not have the time and equipment to do a thorough maintenance. In this case, you can leave the chores to us.

N30 has a team of qualified aquarium specialists who are trained in aquarium water chemistry, coral reef care, aquatic plant care, salinity balance, water bacteria culture and other specialised knowledge to keep your aquarium in tip-top condition.
